

Portable Heated Black Glass Shelves

Models FS-VGSP-03120 and FS-VGSP- 06120

Sleek and Durable Portable Food Warmer

The Vianni Heated Black Glass Shelves are designed to hold and display hot food products safely at the proper serving temperature while preserving quality. The Black Glass is designed and produced by SCHOTT, a 125 year old German company and global leader in glass technology and innovation.

The approved food safe material was selected for durability and maximum performance while giving a sophisticated look to fit many settings. These Portable Heated Shelves maintain a uniform surface heat ranging from 86°- 185°F (30°-85°C) and are ideal for buffet lines, catering events, pass-through areas and hors d'oeuvres display.

Versatility

- Available in portable or built-in models
- Two efficient portable sizes for any occasion that hold food hot while preserving quality
- Made of approved food safe materials allowing placement of food directly on the glass surface
- Ideal for placing at multiple customer serving points

Features

- Thermostatically-controlled heated base to help hold food hot (Heated Shelves are for pre-heated food only.)
- Unique, low energy heating element enclosed with aluminum, directs heat to black glass for fast and efficient energy transfer toward food
- German made E.G.O. temperature controller
- Equipped with a 6' power cord, four rubber feet to prevent unit from sliding and a lighted on/off rocker switch
- Stainless steel casing

Limited Warranty

Vianni warming equipment is backed by a 2-year parts warranty against manufacturer workmanship or material defects.
